Hit The Road Adventure

Our experience in the sector that started in 1975, has been continuing under the title Kavsan Plastic & Metal Ind. Tic. Ltd. Sti. since 1987.

'What are we doing? - 'We've been doing this very well !!!... That's why our style is "a little" different.

Our main activities are concentrated over plastic. Through the years we have continuously renewed and enlarged our machinery and by adapting the plastic according to the product range our customers require. Today we produce products that are perfect indicators of our quality. We are witnessing the chats in your houses, the abundance of your business, the dowry chests thanks to the products we design. And we do this knowingly and willingly; with the love of production. Our goal is to be with you at every moment of your life ... Of course our job is not just plastic.

After all the massive exports we have performed to Europe, South America, Africa and Middle East, we are happy to prove that our quality is in compliance with the European standards, the ISO 9001 and ISO 22000 standards and T.C. Ministry of Food Agriculture and Livestock production permits. Our main principle is to answer the unlimited requests of our customers at the shortest time with the best quality and most appropriate costs.

And we are doing this with a registered name and products patented with industrial design after 30 years of experience,

As of 2015, we're facing our valued customers with a new brand ... Zucci!!!

In the glassware sector, we are bringing together Kavsan 's vast experience accumulated through the years with Zucci's innovative and aesthetic stance ...

Because we are doing this job so well since the first day to be worthy of your trust. 

By using *recycled* plastic,
you can help us

PROTECT
the oceans.
